

FACT SHEET

Cordless Hedge Trimmer

The Hoselink Cordless Hedge Trimmer is a handheld power tool that makes the job of trimming hedges quick and easy to accomplish. This trimmer has passed the rigorous HOSELINK testing regime and carries a 2 year HOSELINK guarantee.

It is a lightweight and highly portable tool, powered by an 18 Volt Lithium-ion rechargeable battery. Battery life after each charge is expected to provide up to 40 minutes of cutting time. The battery pack is removable and additional battery packs are sold separately. No electrical power cords means no messing around with extension leads, or potentially cutting the cord accidentally.

There are 2 handles so that it can be easily held when cutting – a forward and rear handle. Both handles can be adjusted into 3 different positions up to 180 degrees, allowing for 9 different handle settings to perfectly suit the cutting angle required. An important safety feature is that each handle has a power trigger which must be depressed at the same time for the blades to operate.

There is a removable plastic cover over the cutting blades for protection when not in use. There is also a hand guard situated over the cutting blades to stop cuttings from hitting the forward hand during operation.

The blades easily cut through small branches up to 12mm in diameter. The tool is perfect for trimming hedges and plants.

FEATURES

- 52cm dual action blade
- 180 degree rotating handle for easy angled trimming
- 3 position front and rear handles
- Blade and hand guard
- Double-action power switch
- Rechargeable 18V Lithium-ion battery
