Solar Ground light | Warm White
2 pack | KIRKOS

HOSELINK®

Kit Contents

2 x Solar Lights
2 x Ground Spikes

Activate Light

Use the 'ON/OFF' button located on the back of the solar light to turn the light "ON". To test the light, hold your hand over the solar panel and check if the light comes on. The solar panel has a built-in intelligent light sensor, which detects darkness, automatically illuminating the light at dusk and turning it off at dawn.

Product installation

STEP 1 Find a suitable location
Solar lights need access to direct sunlight for optimum results; preferably 6-8 hours per day

STEP 2 Install Solar Ground Lights

Product installation – Option A

Ground Spike
A.1 Push the two spike pieces together by lining up the grooves - one long slot and one short slot will go together to form the ground spike.

A.2 Push the spike into the base of the solar light until secured then simply push into soft ground in your desired location.

Product installation – Option B

Using adhesive outdoor tape
B.1 Using adhesive outdoor tape to stick to a wall.

B.2 Adhere using Hoselink Outdoor Acrylic Double-Sided Tape (SKU L100), sold separately. Apply tape to the back of the light, then press firmly onto a clean surface.

Specifications

Solar panel	Polycrystalline, 5.5V, 130mAh
Lithium battery	4.4W , 1200MAH
Operating time	8w–10 hours
Charge time	6-8 hours
Size	120mm
Waterproof rating	IP65
Light temperature (Kelvins)	2800 - 3200K
LED lumens	11-15
Effective range	1m
