Hamptons Style Solar Path Light  
2 Pack | 16LED | MONTAUK

**HOSELINK**<sup>®</sup>

## Kit Contents

---

2 x Hamptons Style Solar Path Light

2 x Ground Spike

With a design reminiscent of the Hamptons' timeless coastal elegance, these solar path lights are a delightful and practical lighting solution designed to enhance the aesthetics of your outdoor space.

## Lighting Modes

---

1 High

2 Low

## Activate light

---

Use the 'on/off/mode' switch located on the back of the solar panel to turn the lights on. To test the light, hold your hand over the solar panel and check if the light comes on. The solar panel has a built-in intelligent light sensor, which detects darkness, automatically illuminating the light at dusk and turning it off at dawn.

Select high or low brightness via the Mode button. NB. The battery will last longer on low mode.

## Product Installation

---

### STEP 1 Find a suitable location

Solar lights need access to direct sunlight for optimum results; preferably 6-8 hours per day.

### STEP 2 Install into ground

Push the spike into the base of the solar light until secured then simply push into soft ground in your desired location.

## Storing the lights

---

Manually switch the power to OFF. This will preserve the battery and prevent it from fully discharging during extended storage.

## Specifications

---

|                             |                 |
