3 x Solar Garden Spotlights

This pack of 3 warm white Solar Garden Spotlights emit a pale yellow tone, bringing ambience and decoration to your outdoor space.

The spotlights themselves can then be used in any light situation, dim, sunny or otherwise, to perfectly illuminate feature planting or outdoor areas.

Made of rustproof stainless steel material to prevent them from deteriorating and giving you a longer-lasting product.

Solar Panel Assembly

Thread the screw through the bracket located on the back of the solar panel, then push the spike over the screw, securing with the supplied nut. The solar panel can either be mounted by using the supplied screws and plugs or inserted into the ground using the spike.

Product Installation – Option 1

Masonry install.
Using an electric drill (hammer or rotary), drill a hole with an 8mm masonry drill bit, hammer plugs into place and then secure the screws.

Product Installation – Option 2

Timber install.
Using an electric drill, drill a pilot hole with a 4mm drill bit to guide the screws (plastic plugs not required).

Connecting lights and solar panel

Put the three cables into place.
Push the three cables into place being mindful not to damage the prongs inside the connection, then tighten collar for a watertight seal.

Activate the Light

STEP 1   Find a suitable location
Solar lights need access to direct sunlight for optimum results, preferably 6-8 hours per day.

STEP 2   Secure the spikes
Secure the spikes to lights using the three small screws supplied. Simply line up bracket on the light and spike then thread screw into place. Push spikes into ground as required.

STEP 3   Activate the lights
Press and hold the white button on the back of the solar panel for 3 seconds to turn the light on and off.

Be sure to clean the solar panel periodically to maintain optimal performance.

Specifications

Solar Panel	6W
LED Lumens	100 lumens
Cable Length	15 metres
Lithium Battery	2 x 2200mAh / 3.7V
Charge Time	6–8 hours
Working Time	6–8 hours

WARNING: do not use this light underwater or in low lying puddles
