1 x Indoor Outdoor Solar Table Lamp

Lighting Modes

This light features 2 modes and each mode has 4 brightness settings:

1 Indoor Mode

Light continuously on until turned off.

2 Outdoor Mode

Light will activate at dusk until dawn.

Brightness Modes

- 1 25%
- 2 50%
- 3 75%
- 4 100%

Activate the Light

Press and hold the 'Power' button for 3 seconds to turn the lights ON. To test the light, hold your hand over the solar panel and check if the light comes on.

Press the 'Power' button continuously for 3 short presses to switch between indoor and outdoor mode. To check if this has worked the light should flash 3 times. To change between brightness modes just press the power button once.

Using the Light

Place the light in the desired location. Solar lights need access to direct sunlight for optimum results, preferably 6 to 8 hours per day. The light can also be charged using the USB-C port (cable not included).

Be sure to clean the solar panel periodically to maintain optimum performance.

Storing the Light

Press and hold the 'Power' button for 3 seconds to switch the power OFF. This will preserve the battery and prevent it from fully discharging during extended storage.

Specifications

Solar Panel	Monocrystalline silicon
Lithium Battery	4.68V / 2000mAh
Operating Time	Indoor: 8.5 hours Outdoor: 36 hours
Charge Time	Solar Panel: 20 hours USB-C: 4.5 hours
