Activate the Light

There are no buttons, the light will come on automatically. The Solar Inflatable Pool Light will automatically charge in the sunlight and illuminate once it becomes dark.

For best use, charge for 8 hours or longer.

Instructions

Inflate each light and close the cap, pressing firmly to seal. Position the Flamingo in direct sunlight for 6-8 hours. The Flamingo will glow automatically once it gets dark.

Important: Avoid over-inflating in an attempt to smooth out wrinkles.

When storing the Solar Inflatable Pool Light, deflate the light and fold.

In cold weather the Solar Inflatable Pool Light may need re-inflating.

For best use, the batteries need to be charged every 6 months.
